Brief Description of Arguments to be Presented:

The buffers 64 and 66 of the Hausauer reference are one level removed from the recited plurality of transaction order queues, and thus are not properly equatable with one another. This transposition also indicates the impropriety of comparing the recited transaction identifier communication link to structure disclosed in the cited reference.

An interview was conducted on the above-identified application on _____.
 NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
